

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

July 30, 2022

Subject: Switch Decommission, Switch Power Down

Notice ID: Network Change Notice SD Texas 004

Carrier: Valor Telecommunications of Texas, LLC
d/b/a Windstream Communications Southwest
4001 North Rodney Parham Road, Little Rock, AR 72212

Contact: For additional information on the planned network changes, please contact:
James Seegar
Windstream
1720 Galleria Blvd, Charlotte, NC 28270
704-845-7466 or 704-728-2272
James.Seegar@windstream.com

Change Effective Date: On or after, January 30, 2023

Planned Network Change(s) will occur at the following locations in Texas:

Windstream Central Office	Address	CLLI
Booker, TX DMS10 Switch	107 S Main St, Booker TX 79005	BOKRTXXADS0
Booker, TX Meta Switch	107 S Main St, Booker TX 79005	BOKRTXXAPS0

Website Link to Notice Posting: <https://www.windstream.com/about-windstream/legal/network-change-notifications> (Select State: Texas)

Additional Details:

Description of the Planned Network Change(s):

The DMS switch, located at 107 S Main St, Booker TX, will be decommissioned, powered down, and removed from Windstream's network as a result of network modernization and consolidation. All traffic will need to be routed to the BOKRTXXAPS0 Meta Switch, located at 107 S Main St, Booker TX. In addition, Windstream's Booker, TX A-Block of 806-658 is also being moved to BOKRTXXAPS0.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the BOKRTXXAPS0 Meta Switch or have existing trunk groups to that switch augmented. Carriers that are code

holders for access connectivity in the Booker TX DMS switch will be required to reposition the codes to the BOKRTXXAPS0 Meta Switch.

All ASRs for the BOKRTXXAPS0 Meta Switch must be received no later than November 30, 2022, in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Booker TX DMS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Booker TX DMS switch (on or after December 1, 2022). This will serve to guide interconnect re-routes of Windstream traffic for native codes currently served by the Booker TX DMS switch to reflect the BOKRTXXAPS0 Meta Switch as the new home switch. All ASRs for the BOKRTXXAPS0 Meta Switch must carry the project code of BOKRTXXAPS0.
