Additional Details:

Description of the Planned Network Change(s):

The DMS10 switch, located at 145 W L St, Forest City, IA 50436, will be decommissioned, powered down, and removed from Windstream's network as a result of network modernization and consolidation. In addition, the Ledyard, IA Remote Switch, located at Edmund St & Blaine St, Ledyard, IA 50556, and Swea City, IA Remote Switch, located at 3rd St & 4th St, Swea City, IA 50590 will also be decommissioned and removed from Windstream's network. All traffic will need to be routed to the FRCYIAXORP0 Meta Switch, located at 145 W L St, Forest City,

IA 50436. The changes to Ledyard and Swea City are not expected to have any impact on carriers. In addition, Windstream A-Blocks will be moved to FRCYIAXORP0.

Forest City, IA - A-Block 641-582

Ledyard, IA - A-Block 515-646

Swea City, IA – A-Block 515-272

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the FRCYIAXORP0 Meta Switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Forest City, IA DMS10 switch will be required to reposition the codes to the FRCYIAXORP0 Meta Switch.

All ASRs for the FRCYIAXORP0 Meta Switch must be received no later than December 9, 2022 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Forest City, IA DMS10 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Forest City, IA DMS10 switch (on or after December 10, 2022). This will serve to guide interconnect re-routes of Windstream traffic for native code currently served by the Forest City, IA DMS10 switch to reflect the FRCYIAXORP0 Meta Switch as the new home switch. All ASRs for the FRCYIAXORP0 Meta Switch must carry the project code of FRCYIAXORP0.
